

About TK422 Customs the Custom Display Maker

TK422 Customs

<https://tk422customs.com/>

TK422 Customs was born out of the simple idea of creating a gun safe with personality. Something that we would want to show off and say "We built that".

It started with developing the first Continental-style safe inspired by the John Wick movie. Since then, we've evolved into a custom design, fabrication, and delivery firm that brings your ideas to life. Whether it's a custom product box, massive gun safe, or full room design, TK422 Customs is dedicated to crafting immersive experiences that you're proud to own.

TK422 Customs is known for some of the most elaborately engineered and functional Gun Rooms, Vaults and the Taran Tactical John Wick Limited Edition Vaults.

Introducing the Yin Yang, a marvel in firearm storage design crafted by TK422 Customs. This box is a celebration of balance and elegance, encapsulating the essence of the Ying Yang symbol. Its most striking feature is its shape – a perfectly round structure, defying conventional storage design norms.

At the heart of the box is a switch-activated turntable, a sophisticated mechanism that elegantly displays two of the finest firearms crafted by SK Guns.

This isn't just a storage solution; it's a showcase, a stage where these exquisite firearms are the stars. The box features user-controlled LED backlighting, creating an atmospheric glow that accentuates its beauty and the firearms' craftsmanship. The doors of the box slide open in a Yin and Yang fashion, a seamless and poetic motion that reinforces the box's theme of harmony and duality.

The Yin Yang Box is more than a safe; it's a statement piece, a fusion of artistic expression and innovative engineering, designed for those who appreciate the finer things in life – both in art and in functionality.
